

FOR IMMEDIATE RELEASE

## **Video game to bring Saint Thérèse of Lisieux to life**

A new biographical video game about the life and family of Saint Thérèse of Lisieux is currently in early development by Little Way Productions.

Titled *Story of a Little Soul*, the game is based on the autobiography of Céline, one of Saint Thérèse's sisters, as well as research from over five thousand pages of historical documents. It aims to bring a unique perspective to Saint Thérèse's story, providing an intimate look at her relationship with her sisters and the events that shaped her life.

Drawing inspiration from pioneers in the interactive drama genre such as *Detroit: Become Human* and the *Life is Strange* series, *Story of a Little Soul* uses a new form of storytelling, combining elements of film and video games to create an interactive narrative.

Joël Leclerc, director of Little Way Productions, says: "Games have evolved greatly since their roots in arcades. We're now able to create incredibly immersive storytelling experiences which allow players to feel like they are truly part of the story, bringing characters to life in a way that has never really been possible before."

Featuring fully explorable environments from Saint Thérèse's 19<sup>th</sup> century France, *Story of a Little Soul* aims to faithfully recreate the historical context surrounding Saint Thérèse's life.

The international team involved in the production have worked on numerous critically acclaimed films and video games, including *Spider Man: No Way Home*, the *Call of Duty* series, and *Black Panther*.

Joël says: "We're incredibly blessed to be working with such an amazing team of artists, writers, and actors to bring the story of Saint Thérèse to a new audience."
